

Preserve your
beautiful smile.

Image is of a model

“Fresh, crisp, clear, accurate replacement retainers that your patients have total control over. Great cost-effective image builder for you and your practice in this era of providing extraordinary patient experiences.”

Dr. Alan Bagden*

Nearly Invisible retainers.
Smiles for life.

Whether you are about to complete treatment, have been out for several years or never had braces, teeth are prone to shift and move as we age. Prevent relapse and maintain your healthy smile by using Prezurv™ retainers.

Features and Benefits

- Clear retainers shipped to your office to hold your patient's ideal position.
- Available in scalloped or straight trim.
- Bonded lingual wires or pontics can be added if needed. Pontics are available in the most popular tooth shades.
- One week* turnaround time.
- Impressions/molds can be taken with braces in place.
- Retainers come with storage container and box to store additional retainers.
- Available in single tray or dual arch options.

* Appliances with additions like Memotain®, set-ups, pontics, scans or impressions that are distorted may take longer.

Clear retainers in single tray or dual arch options

Designed to be durable material for long periods of wear

Preserves current tooth position

Proper wear increases long term smile protection
